

FRESH ORIGINS produces the very best and uniquely special MicroGreens, PetiteGreens, Edible Flowers, and Crystallized Flowers. Year-round, mild sunny weather at their farm near San Diego, California offers the ideal environment to produce a microgreen crop that is exceptionally nutrient packed and robust with flavor. Harvest time is critical for keeping quality, and Fresh Origins ensures that their microgreens are hand-harvested with care daily to order at the peak of freshness to maintain long lasting taste and color.
